ROOF MAINTENANCE

Delta Innovative Services offers a scheduled maintenance program, designed to reduce your repair costs. Our professional Roof Maintenance Crew understands your roofing system, and can identify problems. Our scheduled maintenance program addresses the problems we see most often, and can be customized to fit your individual needs.

SCHEDULED MAINTENANCE

Your roof is one of your most valuable assets; protecting your roof safeguards the contents of your building, and your livelihood. A scheduled maintenance

plan will help identify and prevent leaks, and it will give your roof an extended life cycle. Just like changing the oil in your car, scheduled maintenance keeps the motor running longer. Scheduled maintenance will help save your company or organization money.

PROGRAM BENEFITS

The benefits of our Scheduled Maintenance Program include isolating and repair minoring problems before they become major issues,

and prolonging the life of your roof. Please contact us, and we'll guide you through the process of setting up a preventative maintenance schedule.
