ROOF REPAIRS

Extreme weather is part of living and working in the Midwest. With more than twenty-five years of experience repairing the roofs of commercial buildings, our roof repair experts have seen just about everything. We know that a damaged roof can compromise the stability of your entire building. We understand the importance of timely roof repairs. Our professional roofing experts are available around-the-clock to handle your roof repairs.

ROOF MAINTENANCE

Delta Innovative Services encourages all of our clients to consider a program of scheduled roof maintenance, and we include a warranty for the labor

and materials that we bundle together for your scheduled maintenance. Remember, when one leak occurs on a roof system, and a repair is completed, there is no guarantee another part of the roof is not going to leak.

EMERGENCY REPAIRS

When a leak threatens the integrity of your building, it can cause serious distress. Our Emergency Roof Repair Team provides "right now" solutions to

your crisis. We understand that even a small leak can trigger thousands of dollars in damage to items in your building.
